

Dear Hiring Manager,

I am writing to apply for the Content Creator and Video Editor position. As a digital marketer who loves sharing tech knowledge, I specialize in creating social media content for smartphone and gadget brands.

During my time at Yangon Mobile Store, I handled the entire video process from start to finish. I tracked trending IT news to plan out videos, wrote scripts for tech tips, and acted as the on-camera host to build trust with our audience. I also handled all the post-production work using tools like Premiere Pro and DaVinci Resolve.

Beyond just making videos, I have a solid technical foundation. I recently earned my Diploma in IT from Kaplan Singapore, achieving High Distinction in almost all of my modules. My background also includes managing my own business and filming fast-paced YouTube content for Nextday Media.

I am currently based in Bangkok and would love to bring my skills in tech storytelling and video production to your team. Thank you for your time, and I look forward to speaking with you.

Best regards,

Han Zaw
